

“Software Engineering through Partnership Engineering...”

We have over 28+ Years of core in-depth HVAC & MEP Industry Expertise...

We are looking for a few core IT / Software Companies based within India who have the manpower & funding resources to partner with us in our area of business interests on a long-term 75:25 partnership basis...

The area of business interests would be in developing a wide range of mutually exclusive Apps & Applications / Software Products & Subscription based Applications related to the core Home & Construction Industry / Process Industry / Manufacturing Industry on a 3-5 year project break-even life-cycle basis..

Any genuinely & seriously interested IT Organisation based anywhere within India and interested in partnering with us on a long-term mutually exclusive basis may get in touch with us for more details...
